

a

b

Verifiers

- figure-verifier — vision vs contract
- numbers-verifier — recompute all
- seed-auditor — MC replayable
- tie-reporter — $dAIC < 2$ = tie set
- notes-reviewers — per-bin critique

Gatekeepers

- admission-gate — no unscreened row
 - port-verifier — code ports proven
- prior-art-reader — never re-derive
 - conformance (NR-24) — R1-R5
- literature — blind-first, bibcodes

Orchestration & oversight

- skill-reader — law per step
- dispatcher — roster per task
- queue manager — one loop
- distiller — incident -> lesson
- approver — the PI's seat
- external auditor — different model, advisory

Enforcers (code, not LLM)

- no-ship hook — unledgred = blocked
- dispatch hook — no plan, no launch
 - RAM arbiter — GB, not cores
- tools: cascade · live report · board
